

Analysis of ILI progress

Student code	Months Reading Age Gain	Months Spelling Age Gain
MB	1	3
JM	12	4
DM	19	-2
IW	15	3
<i>Other interventions were not completed due to Coronavirus related school closure, so cannot be included in this table.</i>		

Outcome - average gain in months	11.75	2.0
---	-------	-----

Summary: there was a notable average gain in reading age and small increase in spelling age over the period of intervention. This took place during curriculum time and based in the Inclusion Centre.

Outline of Tutoring Progress

87 students received intervention at afternoon registration with a qualified Maths teacher. The intervention topic was determined by the subject teacher and varied from session to session. Post intervention assessments were not completed due to Cotonavirus relates school closure.
